THIS IS UNEVALUATED INFORMATION

50X1-HUM

1. [redacted] it was ascertained that military shipments did not pass through Pasewalk during the period from 29 April to 5 May 1951. * A train of 50 tank cars loaded with crude oil passed through the railroad station en route from Leuna (Merseburg) to Stettin daily during the reported period. **

50X1-HUM

* Comment. Pasewalk is the origin of a feeder line to the Scheune border-crossing point via Grombow. However, only few trains operate on this line since most of the trains bound for Scheune run from Angermünde via Tantow. One scheduled train operates on this line daily in both directions.

50X1-HUM

*** Comment. Refers to deliveries of the Leuna hydrogenation plant to the USSR. According to more recent information, these fuel deliveries are henceforth to be routed via Rostock.
